November 2, 2020

To Our Valued Air Freight Clients,

Pace has been committed to providing our Air Freight clients with the best possible service at a competitive level for over 47 years. As costs continue to rise coupled with increased waiting times at airlines and declining service levels Pace will be applying a general rate adjustment to our Air Freight Minimum Charges and Airline Related Accessorial.

For any questions, please contact your account executive.

Sincerely,

William T. Pacelli
